THRU : Ch/E
THRU : ST/FR
Chief, Industrial Division

Submission of Project 15.504, The River Shipbuilding Industry
of the USSR, 1954-1960

1. The attached report is an analysis of the prospective development of the river shipbuilding industry in the USSR, a subject not covered in any previous intelligence study.

2. The report should be of general interest to the intelligence community, because transportation plan fulfillment in some areas of the USSR is closely tied to river transport.

3. It is therefore recommended that the report be published as an I.M. and be given standard distribution.
